MILITARY OFFICIALS

Actively at Work Preparing For the Signal to Begin Hostilities.

WILL NOT YIELD FURTHER

But Afrikanders Declare That If the Imperial Government Does Not Recede From Its Present Position War Is Inevitable—Lansdowne Issues a Warning to Subordinates.

London, Sept. 21.—Despite all outward show of calm, Great Britain is in practically the same condition today as was the United States a few weeks before the opening of the war with Spain. Beneath the crust of diplomatic reserve, the military officials are working night and day, preparing for the signal to begin hostilities, whether that comes or not.

England is not going to be caught napping any more than the Transvaal. While Lord Salisbury is quietly at home in Hatfield House, Mr. Chamberlain is buried in work at the colonial office, and double forces at the Royal arsenal and dockyards are straining every nerve to equip and transport troops to the cape.

It may be set down for certain that Great Britain will do nothing to precipitate matters, and the colonial office is far from admitting that the cause is hopeless. The report that Great Britain has demanded the dismantlement of the forts at Johannesburg, together with a material reduction in the armament of burghers, the colonial office will neither confirm nor deny, although it is much doubted.

Meanwhile the Marquis of Lansdowne, secretary of state for war, has held long conferences with General Lord Gort, field marshal, and General Sir Evelyn Wood, adjutant general to the forces, and the activity at headquarters is reflected in the contract, supply and transport departments. The Johannesburg correspondent of The Morning Post says: "The Boer preparations are as complete as the government can hope to make them. It is believed that martial law will be proclaimed today if no reply is received from England."

"It is understood that the dispatching of British troops to South Africa will be regarded as a casus belli. The Boer officers are urging the government to begin hostilities forthwith. It is felt that the Orange Free State can best be forced to action by a successful military demonstration on the part of the Transvaal."

Advices from Cape Town are to the effect that the Afrikanders declare that the Transvaal will not yield farther, and that if the imperial government does not recede from its present position war is inevitable. The South African News supports the contention of the Transvaal that the convention of 1884 abolished suzerainty.

According to other advices the burghers are rapidly going into Laager, while the exodus from Johannesburg has reached 1,000 persons. The state exodus at Johannesburg has resolved to close the moment martial law is proclaimed, but all current contracts will be carried out until the proclamation suspending all business. In the meantime the merchants are erecting barricades in front of their shop windows.

At Pretoria the interest seems to be centered in the meeting of the Orange Free State Volksraad today, which, it is hoped, may somehow suggest a modus vivendi that would save the situation.

On the other hand advices from Bloemfontaine announce the arrival there of a large number of members of the Raad adding that the result of today's sitting is already agreed upon, as the Orange Free State will throw in its lot with the Transvaal, all the Free

state burghers being ready armed and ready to start at a moment's notice. The Cape town correspondent of The Daily Mail says: "President Kruger has cabled a strong personal appeal to the queen, beseeching her to intervene to prevent bloodshed."

The departure of the British transport Jelunga for the Mediterranean yesterday with 1,100 troops, was witnessed by a large and enthusiastic crowd. At Woolwich, activity increases daily, especially in the ordnance department where Maxim guns, Lyddite shells, balloon equipments, gas reservoirs, wagons for limelight apparatus, watercarts, ambulances, army wagons and other paraphernalia of modern warfare are being hurried forward.

While rumors of the reassembling of parliament are current, the fact is recalled that in the reign of George III, in 1783, Great Britain declared war first and then assembled parliament.

The Marquis of Lansdowne has issued a strict order to the staff of the war office, warning all subordinates to refrain from giving the press any information without the authority of their superiors, and calling attention to previous breaches of duty in this respect which, the order says, "will be no longer tolerated."

WORKERS' ORGANIZATION

Also Ask For Receivers For the Plants and Forfeiture of Charters. \$807,079 Civil War Claim May Yet Be Collected by the State—Pensions For Veterans—Other State News.

Alexandria, Ind., Sept. 21.—Suits were brought in Indiana courts yesterday against all Indiana windowglass companies enjoining them from transferring their plants to the newly organized at least, absorbed them. The suits are brought by President Burns of the Windowglass Workers' National association in behalf of that organization. Every effort will be made by the workers to prevent the manufacturers from completing their trust, though its organization has been perfected. The suits also ask for receivers for the Indiana plants and the forfeiture of Indiana charters on the grounds of violations of Indiana charter and Indiana antitrust laws.

CIVIL WAR CLAIM

Indiana May Yet Collect \$807,079 From the Government. Washington, Sept. 21.—A bill authorizing the court of claims to adjust the claim of Indiana for \$807,079 against the federal government for equipping troops for the civil war will be introduced at the next session of congress. The claim is admitted to be just by the officials of the treasury, but Deputy Controller Maynard held that the claim could not be paid. The claim has been revived recently, and the present deputy controller, Mr. Mitchell, holds the Maynard decision to be an error, and points out that the state of New York collected a similar claim years ago, but that relief can only come through the court of claims. It is believed the passage of the bill will prove the payment of the debt.

PROVED VALUABLE

Offered \$80,000 For a Supposed to Be Profitless Mine. Jeffersonville, Ind., Sept. 21.—Frank McIlvain of this city joined with Tom Crittenden of San Francisco in taking up a mining claim in the far west, which for several years was supposed to be valueless. McIlvain returned to his old home, and when the Spanish war broke out he served as first sergeant in Company C, First Kentucky regiment. Recently he found employment as a laborer with Hoffman's coal fleet, located four miles above this city. He has just received word from Crittenden saying that gold had been found on their claim and that men stood ready to buy their interest for \$80,000. McIlvain will leave at once for California to investigate.

PAID THE CLAIM

Judge Adams Will Not Be Prosecuted For Alleged Embezzlement. Lebanon, Ind., Sept. 21.—Judge J. G. Adams, who recently collected a \$305.64 judgment in favor of J. Dye and used the money to pay a claim of the Merchants' Shoe and Leather company of Jeffersonville, and thus embezzlement and disbarment proceedings instituted against him by the company, has settled Mr. Dye's claim. Mr. Dye threatened to institute suit against Judge Adams, charging the latter with embezzlement, if the money was not forthcoming. Judge Adams had finally succeeded in raising the money and the matter has been dropped.

SENATOR MASON

Says He Is Ashamed of His Country's Philippine War.

Washington, Sept. 21.—In an interview Senator Mason of Illinois said: "On the floor of the senate I shall continue my opposition to the war upon the Philippines. I would sooner resign my seat than treat a dog the way we are treating those people. I am ashamed of my country. People make a great mistake," he continued, "when they say that I am against expansion. I am not. But expansion by purchase or other honorable means is one thing; expansion by force is another. I do not believe that there was any necessity for this war upon the Philippines. I believe that if we had adopted a resolution in congress, assuring those people as we assured the Cubans, that we had no selfish designs upon them, we never would have met with any opposition in the Philippines. The fact is, that we have given the Philippines every reason to distrust us, and they are fighting for their own liberty."

End of the Procession, Instead of at the head of the column; that General Roe has taken no cognizance of Commander-in-Chief Albert D. Shaw and has sent him no invitation to any of the functions; that the invitation for the G. A. R. organizations to participate in the parade has been extended at second hand through Colonel H. H. Adams and that General O. O. Howard has been placed in command of the G. A. R. forces on the day of the parade contrary to the regulations of that organization.

Chief among the reasons given by General Roe in his final refusal to alter the position assigned to the Grand Army, was that the parade would be in every sense a military one, and that according to regulations such an unarmed body of men as the G. A. R. cannot march before a body of men bearing arms.

EARTHQUAKE IN ALASKA

Lasted Seven Days and Extended One Hundred and Fifty Miles. Seattle, Wash., Sept. 21.—The steamship City of Topeka has arrived here from Lynn canal with news of a terrible earthquake, which began Sept. 8 and continued until Sept. 10. The steamer Dora carried the news to Juneau.

Annual Pumpkin Story.

Monon, Ind., Sept. 21.—O. E. Pierpont is taking rank as a cultivator of pumpkins. He recently exhibited one weighing 118 pounds, and also three, the combined weight of which was 825 pounds.

Internal Revenue Collections.

Washington, Sept. 21.—The monthly statement of collections of internal revenue shows that for the month of August the receipts from all sources amounted to \$24,480,980, an increase as compared with August last year of \$1,040,482.

Three distinct shocks were felt at Juneau. Buildings were badly shaken. The earthquake was most severe at Yakutat. Kanan Island, at the entrance to Yakutat bay, sank 20 feet into the sea. At high tide only the tops of trees are visible. Huge fissures opened in the earth. The Dora passengers say that in two minutes the ocean rose 20 feet above high tide and almost as quickly subsided. Indians have deserted their homes and are living in tents on the beach. Many have gone to Juneau.

INVESTIGATION

Asked For Regarding Desecration of Catholic Churches in Philippines. New York, Sept. 21.—The National Union of Catholic Young Men's Societies in session at Newark, has adopted the following resolutions:

Whereas, For some time past many rumors have appeared in the public press, and have been affirmed by private advices, that Catholic churches in the Philippines have been desecrated and despoiled of sacred vessels and vestments by soldiers of the United States.

Resolved That we, the Catholic Young Men's National Union, embracing 60,000 men in the United States, do call upon the president of the United States for a thorough investigation and report upon such rumors as to their truth or falsity, and.

Resolved That if upon proper investigation these rumors should be found true in whole or in part, we demand (1) the punishment of those guilty or responsible for such outrages upon our religion, and (2) that the necessary measures be adopted to prevent the recurrence of such desecrations.

For Governor of Illinois.

Chicago, Sept. 21.—The Times-Herald today says: Mayor Harrison will run for governor of Illinois next year. His decision was supposed to remain secret until later in the season. The mayor himself gave the news to William J. Bryan last Saturday. Mr. Bryan was so eager to express his satisfaction to three or four Illinois Democrats that he opened the leak.

Telephone No. 42

THURSDAY, SEPT. 21, 1899.

THE REPUBLICAN has received a special invitation from the newspaper fraternity of Greensburg, to attend their street fair the first week in October. Thanks, gentlemen we'll be over.

STILL the people wonder why John Peter Altgeld did not attend that anti-trust conference. Bryan was there and probably would have been glad to have his Illinois manager hear his speech.

SHELBY county officials are in more trouble. The new democrat paper there, the Jeffersonian, publishes the fact that two important books are missing from the county auditor's office. The books that are gone, that can not be found, are the "register of orders drawn upon the treasurer of Shelby county" and the auditor's record, in other words the auditor's condensed ledger. These are among the most important books in the office. When Mr. Aultman assumed the duties of his office these books were missing. He thought he would be able to find them, having no thought other than that they were in the office some place. He has searched the court house over and they can not be found, and now there is an increased demand for a thorough investigation of the books.

JOHN OVERMEYER is sending out the very important matter of news to the democratic papers of the Fourth district that he is to make four speeches in Kentucky, naming the places and dates, doubtless thinking that some of the brethren will want to go over and applaud him. But most of them heard John before he altered his political views to correspond with the politics of the Fourth district. In fact they have heard him "orate" on all sides of campaign issues and probably won't follow him into Kentucky now. Now some people may doubt the modesty of the erstwhile national banker and republican office seeker in sending out these Kentucky announcements, but that would be unkind. He believes in advertising and wants to get as much of it for nothing as he can, but his experience in the preparation of display ads. is limited.

B. N. EDMONDSON, Act. Tkt. Agt.

How to Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

WHAT TO DO.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain the back, kidneys, liver, bladder, and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty cent and one dollar sizes.

You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail, address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention that you read this generous offer in the Seymour REPUBLICAN.

Through a Rich Territory.

The Indianapolis Journal in an editorial says: "Everyone who is interested in the development of the state will hope that the projected Southern Indiana road is something more than the scheme on paper that so many plans in that line have been before it, and that it will be carried to completion. A study of the map is enough to show the need of such a road, but when to this is added an acquaintance with the products of the region in the way of coal, stone, fruit, etc., the feeling is one of wonder that it has not been built before. The road as planned will pass through a large territory which for its perishable products has practically no outlet and can only reach a market for the others in a roundabout and expensive way."

D. M. Loper, of Weston, Ill., is in the city on his way home from a visit to his mother, at Sparta, Ind. He was formerly a citizen of Surprise. He will be here till after the street fair.

Deafness Cannot be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.

The great English author will then handle "The Mutineer in the Church," and after that answer the somewhat startling question, "Should the Old Minister be Shot?"

"Saved Her Life."

DR. JOHN W. ALLEN, of Jefferson, Wis., than whom none is more highly esteemed or widely known, writes: "In 1880 I had a severe attack of LaGrippe and at the end of four months, in spite of all physicians, friends and good nursing, could do, my lungs were in a state of complete collapse, my friends giving me up. I could only sleep by the use of opiates. My lungs and heart pained me terribly and my cough was most aggravating. I could not lie on my left side at all. My husband brought me Dr. Miles' Nerve and Heart Cure and I began taking them. When I had taken a half bottle of each I was much better and continuing persistently I took about a dozen bottles and was completely restored to health to the surprise of all."

MILITARY OFFICIALS

Activity at Work Preparing For the Signal to Begin Hostilities.

WILL NOT YIELD FURTHER

But Afrikanders Declare That If the Imperial Government Does Not Recede From Its Present Position War Is Inevitable—Lansdowne Issues a Warning to Subordinates.

London, Sept. 21.—Despite all outward show of calm, Great Britain is in practically the same condition today as was the United States a few weeks before the opening of the war with Spain. Beneath the crust of diplomatic reserve, the military officials are working night and day, preparing for the signal to begin hostilities, whether that comes or not.

England is not going to be caught napping any more than the Transvaal. While Lord Salisbury is quietly at home in Hatfield House, Mr. Chamberlain is buried in work at the colonial office, and double forces at the Royal Arsenal and dockyards are straining every nerve to equip and transport troops to the Cape. It may be set down for certain that Great Britain will do nothing to precipitate matters, and the colonial office is far from admitting that the cause is hopeless. The report that Great Britain has demanded the dismantlement of the forts at Johannesburg, together with a material reduction in the armament of burghers, the colonial office will neither confirm nor deny, although it is much doubted.

Meanwhile the Marquis of Lansdowne, secretary of state for war, has held long conferences with General Lord Garnet Wolseley, field marshal, and General Sir Evelyn Wood, adjutant general to the forces, and the activity at headquarters is reflected in the contract, supply and transport departments. The Johannesburg correspondent of The Morning Post says: "The Boer preparations are as complete as the government can hope to make them. It is believed that martial law will be proclaimed today if no reply is received from England."

"It is understood that the dispatching of British troops to South Africa will be regarded as a *caveau belli*. The Boer officers are urging the government to begin hostilities forthwith. It is felt that the Orange Free State can best be forced to action by a successful military demonstration on the part of the Transvaal."

Advices from Cape Town are to the effect that the Afrikanders declare that the Transvaal will not yield farther, and that if the Imperial government does not recede from its present position war is inevitable. The South African News supports the contention of the Transvaal that the convention of 1884 abolished suzerainty.

According to other advices the burghers are rapidly going into laager, while the exodus from Johannesburg has reached 1,000 persons. The stock exchange at Johannesburg has resolved to close the moment martial law is proclaimed, but all current contracts will be carried out until the proclamation suspending all business. In the meantime the merchants are erecting barricades in front of their shop windows.

At Pretoria the interest seems to be centered in the meeting of the Orange Free State Volksraad today which, it is hoped, may somehow suggest a modus vivendi that would save the situation. On the other hand advices from Bloemfontaine announce the arrival there of a large number of members of the Read adding that the result of today's sitting is already agreed upon, as the Orange Free State will throw in its lot with the Transvaal, all the Free

state burghers being fully armed and ready to start at a moment's notice. The Cape town correspondent of The Daily Mail says: "President Kruger has cabled a strong personal appeal to the queen, beseeching her to intervene to prevent bloodshed."

The departure of the British transport Jeune for the Mediterranean yesterday with 1,100 troops, was witnessed by a large and enthusiastic crowd. At Woolwich, activity increases daily, especially in the ordnance department where Maxim guns, Lyddite shells, balloon equipments, gas reservoirs, ambulances, army wagons and other paraphernalia of modern warfare are being hurried forward.

While rumors of the reassembling of parliament are current, the fact is recalled that in the Afghan war in 1878, Great Britain declared war first and then assembled parliament. The Marquis of Lansdowne has issued a strict order to the staff of the war office, warning all subordinates to refrain from giving the press any information without the authority of their superiors and calling attention to previous breaches of duty in this respect which, the order says, "will be no longer tolerated."

SUITS ARE BROUGHT

Enjoining Indiana Window-glass Companies From Entering the Trust.

WORKERS' ORGANIZATION

Also Ask For Receivers For the Plants and Forfeiture of Charters. \$800,070 Civil War Claim May Yet Be Collected by the State—Pensions For Veterans—Other State News.

Alexandria, Ind., Sept. 21.—Suits were brought in Indiana courts yesterday against all Indiana windowglass companies enjoining them from transferring their plants to the newly organized \$17,000,000 trust, which has by contract at least, absorbed them. The suits are brought by President Burns of the Windowglass Workers' National association in behalf of that organization. Every effort will be made by the workers to prevent the manufacturers from completing their trust, though its organization has been perfected. The suits also ask for receivers for the Indiana plants and the forfeiture of Indiana charters on the grounds of violations of Indiana charter and Indiana antitrust laws.

CIVIL WAR CLAIM

Indiana May Yet Collect \$800,070 From the Government. Washington, Sept. 21.—A bill authorizing the court of claims to adjust the claim of Indiana for \$800,070 against the federal government for equipping troops for the civil war will be introduced at the next session of congress. The claim is admitted to be just by the officials of the treasury, but Deputy Controller Maynard held that the claim could not be paid. The claim has been revived recently, and the present deputy controller, Mr. Mitchell, holds the Maynard decision to be an error, and points out that the state of New York collected a similar claim years ago, but that relief can only come through the court of claims. It is believed the passage of the bill will mean the payment of the debt.

McIlvain returned to his old home, and when the Spanish war broke out he served as first sergeant in Company C, First Kentucky regiment. Recently he found employment as a laborer with Hoffman's coal field, located four miles above this city. He has just received word from Oritenden saying that gold had been found on their claim and that men stood ready to buy their interest for \$80,000. McIlvain will leave at once for California to investigate.

SENATOR MASON

Says He Is Ashamed of His Country's Philippine War.

Washington, Sept. 21.—In an interview Senator Mason of Illinois said: "On the floor of the senate I shall continue my opposition to the war upon the Philippines. I would sooner resign my seat than treat a dog the way we are treating those people. I am ashamed of my country. People make a great mistake," he continued, "when they say that I am against expansion. I am not. But expansion by purchase or other honorable means is one thing; expansion by force is another. I do not believe that there was any necessity for this war upon the Philippines. I believe that if we had adopted a resolution in congress, assuring those people as we assured the Cubans, that we had no selfish designs upon them, we never would have met with any opposition in the Philippines. The fact is, that we have given the Philippines every reason to distrust us, and they are fighting for their own liberty."

"Talk about hauling down our flag," continued Senator Mason. "Will not our flag come down in Cuba? Certainly it will, if we are true to our promises. And the day that it comes down will be the brightest day in our history, because it will show that we are a great, unselfish nation, devoted to the eternal principles of right and honesty. If the Cubans want to be annexed later, that is another question. Why cannot we deal with the Philippines in the same way?"

In 1894 I was working at night and I broke out in jumps all over and when I left the skin peeled off. My eyes were swollen and I had pimples and brown spots on my face. Now these are all gone, and I believe I am entirely well. I have a good appetite, but before I commenced taking your 'Golden Medical Discovery' I had no appetite at all. Now I am like a child—ready to eat at any time of the day or night."

THURSDAY, SEPT. 21, 1899.

THE REPUBLICAN has received a special invitation from the newspaper fraternity of Greensburg, to attend their street fair the first week in October. Thanks, gentlemen we'll be over.

STILL the people wonder why John Peter Aligeld did not attend that anti-trust conference. Bryan was there and probably would have been glad to have his Illinois manager hear his speech.

SHELBY county officials are in more trouble. The new democrat paper there, the Jeffersonian, publishes the fact that two important books are missing from the county auditor's office. The books that are gone, that can not be found, are the "register of orders drawn upon the treasurer of Shelby county" and the auditor's record, in other words the auditor's condensed ledger. These are among the most important books in the office. When Mr. Aultman assumed the duties of his office these books were missing. He thought he would be able to find them, having no thought other than that they were in the office some place. He has searched the court house over and they can not be found, and now there is an increased demand for a thorough investigation of the books.

JOHN OVERMEYER is sending out the very important matter of news to the democratic papers of the Fourth district that he is to make four speeches in Kentucky, naming the places and dates, doubtless thinking that some of the brethren will want to go over and applaud him. But most of them heard John before he altered his political views to correspond with the politics of the Fourth district. In fact they have heard him "orate" on all sides of campaign issues and probably would follow him into Kentucky now. Now some people may doubt the modesty of the erstwhile national banker and republican office seeker in sending out these Kentucky announcements, but that would be unkind. He believes in advertising and wants to get as much of it for nothing as he can, but his experience in the preparation of display ads. is limited.

B. N. EDMONDSON, Act. Tkt. Agt.

How to Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

WHAT TO DO.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain the back, kidneys, liver, bladder, and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty cent and one dollar sizes.

You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail, address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention that you read this generous offer in the Seymour REPUBLICAN.

Through a Rich Territory.

The Indianapolis Journal in an editorial says: "Everyone who is interested in the development of the state will hope that the projected Southern Indiana road is something more than the scheme on paper that so many plans in that line have been before it, and that it will be carried to completion. A study of the map is enough to show the need of such a road, but when to this is added an acquaintance with the products of the region in the way of coal, stone, fruit, etc., the feeling is one of wonder that it has not been built before. The road as planned will pass through a large territory which for its perishable products has practically no outlet and can only reach a market for the others in a roundabout and expensive way."

D. M. Loper, of Weston, Ill., is in the city on his way home from a visit to his mother, at Sparta, Ind. He was formerly a citizen of Surprise. He will be here till after the street fair.

Deafness Cannot be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tubestored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.

Fatal Loquacity.

In a New England village rich in quaint and amusing characters John Bates was renowned for his ability to hold his tongue. The gift approached genius, but John was keenly alive to what he considered its incompleteness, although of course he said nothing about it.

He made mattresses for a living, and one day a native of the village came into his shop and said:

"John, what's the best kind of a mattress?"

"Husks," said John and said no more.

Twenty years later, so the tradition runs, the same man came again to the shop and asked what, in Bates' opinion, was the best kind of a mattress.

"Straw," said John.

"Straw? You told me husks was the best!"

John gave a despairing sigh. "I've always ruined myself by talkin'," said he.—Youth's Companion.

May a Woman Tell Her Love?

It is true it is unconventional for a woman to tell a man that she loves him unless the man has persuaded her to make such confession. But is there any good reason why a woman should not take the initiative? Is she any less a woman for doing so? A shy and timid man may not know how to tell a woman that he loves her. Should the woman, who is of firmer faith and stronger mind, stand halting and waiting for a confession that may never come? Why should she suffer in silence? By so doing may she not lose the man who loves her and also the happiness of a lifetime as well?—New York World.

Mutual Aid.

From the time that the mother binds the child's head till the moment when some kind assistant wipes the damp from the brow of the dying we cannot exist without mutual aid. All, therefore, that need aid have a right to ask it from their fellow mortals. None who hold the power of granting aid can refuse it without guilt.

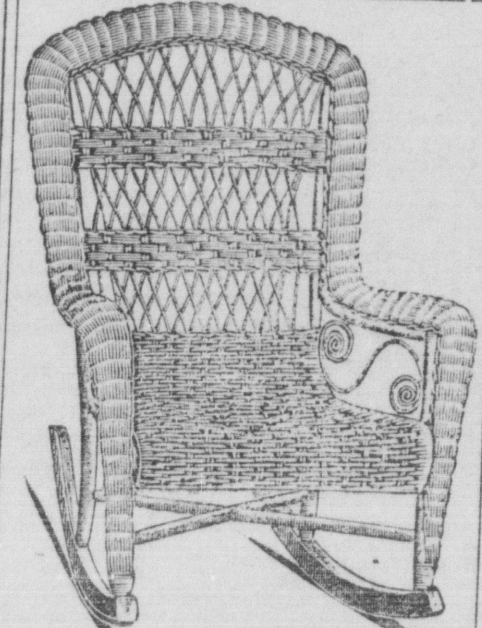

True It Is.

"Our rules are never satisfied," mused the janitor philosopher. "When they are in short skirts, they are crying for long wans, an when they git long wans they have to hold them up."—Chicago News.

Ian Maclaren on The Church.

It has been known for some time that Ian Maclaren has been critically studying modern church methods, and the results are now to be made public in The Ladies' Home Journal. His first article is called "The Candy-Pull System in the Church," and in this he frankly states what many have felt but have scarcely ventured to publicly assert with regard to social tendencies of the church. The great English author will then handle "The Mutineer in the Church," and after that answer the somewhat startling question, "Should the Old Minister be Shot?"
